Winter Carnival

by: Raychel Wilmot and Dacoya Mckay

Have you guys ever heard of a winter carnival? Well every year at Rocky Mountain Elementary the PTO has a winter carnival. Everybody has a blast there, also it's really cheap. You or just your kids or the whole family can go. Everyone will have fun. Come to the Winter carnival at Rocky Mountain Elementary and it puts a smile on everyone's face. Me and my friend asked different people questions. Here is what they said before they went to the winter carnival. Mr. Hassemer answered "I think it's going to be a blast and everybody is going to have an amazing day". Then we asked Mrs. Alldredge "on a scale from 1 to 10 how hard is it to plan the winter carnival". She wrote "A 5 because my collaborative team helped me a lot". Then we asked Mrs. Alldredge, Mr. Hassemer, and Antonio some after questions. Here is what they answered: Antonio wrote that his favorite booth was soda pop toss. Mr. Hassmer said "he had a phenomenal time at the winter carnival". Then Mrs. Alldredge said that her favorite part was seeing all the excitement on all the kids faces as she sold them there tickets. So come to Rocky Mountain Elementary school and have a great time at the winter carnival.

RME Holiday Traditions

by: Elizabeth Mckay and Devlin Harris

Now we all love Christmas, right? But we all have different traditions. Some people that celebrate other holidays like Hanukkah. Hanukkah started back then when men and women were not allowed to believe in different religions. So they fought to be able to follow their own religions freely. When they were able to follow their own religions, they lit a candle for celebration. But they only had enough oil for only one day and night and it actually lasted for eight days. So now every Hanukkah, people who celebrate Hanukkah light eight candles and a lighting candle in the middle. Christmas is also fun because Christmas has fun things happening like

Cafeteria Holiday Food

by: Courtney Davis and Lydia Adcock

Every month with a holiday we have a special lunch dish. It is called turkey gravy and it has mashed potatoes, meat, and gravy. Sometimes it gets really special. For example one time we got spice cake and stuffing. Now let's see what others think about turkey gravy.

Laurie and Kristi are two of the lunch ladies in the cafeteria that make this dish. According to Laurie, "the dish is important because it taste good". Even though it taste good it is extremely hard to make because it three whole days. They love to cook and they always will.

Nobody in the lunchroom wants to make this dish every day. Do you want to know why? It's because it has a bunch of ingredients. Like I said it takes 3 days. When we usually have turkey gravy it's on a Thursday but on Tuesday, Wednesday, and Thursday they make the dish.

Laurie one of our lunch ladies said "All of the lunch ladies love to cook this dish and they would not want to make this everyday". This dish is the most famous dish in the whole school thanks to the lunch ladies. We almost forgot this dish brings family and friends together at Rocky Mountain Elementary school.

My partner and I questioned three people there names were Mrs. Alldredge, Mrs. Pantuso and Cadence. The first question we asked is did you like the turkey gravy? Of course all of them said "yes". They just didn't say yes they said they "loved it". Another question we asked is what did you like and don't like about this dish? Ms. Alldredge and

Ms. Pantuso answered that they would like something else to drink besides milk. Well according to Cadence, "it was a little bit dry".

Next we asked what did you like about this

Rocky Mountain Expectations Booster

by: Rian Hinden, Janayah Alvarado, and Dominick Weeks

Did you like following the expectations on the snowman?! A lot of students follow the expectation in 4th grade. Students did like following them too, also students followed at least 4 or 5 expectation. They used maybe recess expectation, bathroom expectation, hallway expectation and substitute expectation. Sometimes following the expectation could be really hard for other students. Everyone has been nice to every person in 4th grade.

In Mrs. Alldredges class Rayden said "that's a way to accomplish a goal is to work together". Andrew said, "to be nice to another". Mrs. Alldredge said that "we should be nice to one another". Mrs. Alldredge said that some of the goals that her class set were recess behavior and to get behavior chart signed. Mrs. Franklin said that some of the goals that her class set is recess behavior, get behavior chart signed, and hallway behavior.

According to Mrs. Alldredge they got there expectation booster on Monday the 8th. Mrs. Alldredge also said "the students came up with the expectation booster and the expectations on it." She also that "the two biggest expectations are being kind to each other and transition." When I asked her what are three of the smallest expectations she said "0"

I realized that we talked about everything. Those are some of the goals that Mrs. Wade's, Mrs. Franklin's, and Mrs. Alldredge's class set for their behavior booster's.

Santa coming to the house and eating dinner then leaves, making candy, putting up the tree, wrapping up presents, finding the presents, opening presents, Christmas movies, and sometimes birthdays but mostly it's about family and friends and the time you have with them. This is our article and we hope you learned something and enjoyed reading our article.

The End

dish? Ms. Alldredge, Mrs. Pantuso and Cadence loved the food and how it brought everybody together.

Our teachers and friends loved the dish. I hope you like the dish to. Let's hope it brings your family together and other families. I hope what we said is true to you.
